

FALL 2009

LECTURE SERIES

2012 and the Maya Cosmos:

The Equinox Descent of the Serpent of Light at Chichen Itza, Yucatan

THE UNIVERSITY HONORS PROGRAM

The world is coming to an end on December 21, 2012! ... or perhaps not. As we approach the end of an important 5,125 year cycle in the ancient Maya calendar on the winter solstice in 2012 the world is witnessing an exponential grow of "new age" cults that anticipate the occurrence of something profound... and Chichen Itza is the epicenter.

Join University Honors' Dr. John Carlson for a well-illustrated discussion of his research on the history and science of the Serpent of Light phenomenon and the 2012 event.

Tuesday, March 10

7:00-8:30 pm

Anne Arundel Hall Basement Lounge

Refreshments will be served!
