Education

University of Michigan	Ph.D. 1992	Astronomy	1987 – 1992
Princeton University		Physics	1985 – 1986
Massachusetts Institute of Technology	S.B. 1985	Physics	1981 – 1985

Employment

Professor	Departments of Astronomy & Physics	2012 –
Chair	Department of Astronomy	2015 – 2022
Director	Astronomy Program	2023 –
	Warner & Swasey Observatory	2015 – 2022
	Case Western Reserve University	
Professor	Department of Astronomy	2009 – 2012
Associate Professor	University of Maryland	2003 – 2009
Assistant Professor	College Park	1998 – 2003
Research Fellow	Department of Physics and Astronomy	1997 – 1998
	Rutgers University	
Carnegie Fellow	Department of Terrestrial Magnetism	1995 – 1997
	Carnegie Institution of Washington	
Research Associate	Institute of Astronomy	1992 – 1995
	University of Cambridge	

Research Interests

Galaxy formation and evolution, cosmology, the dark matter problem

Professional Societies — International Astronomical Union, American Astronomical Society, Division on Dynamical Astronomy

Honors — Distinguished Alumnus, Flint Northern (2001); University of Michigan (2013)

Scholarly Works

Citation Statistics (as of 20 January 2024):

From *Google Scholar*: Total citations: **20,918**; H-index: **71**;

Number of papers N with over M citations: 56 over 100, 11 over 500, 2 over 1,000.

From the *NASA Astrophysical Data System* (Astronomy specific):

Total citations: **15,693**; normalized per-author: **7,552**; research impact quotient: **328**.

From the *Web of Science*: since arriving at CWRU in 2012, **13** papers are above the **95th percentile** in citation rate, including **5** in the **top percentile**.

Rank in the **top 2%** of the **top 2%** of impactful authors across all sciences according to the *Stanford-Elsevier Updated science-wide author databases of standardized citation indicators*. This is the highest ranking among active CAS faculty.

I have been thanked in the acknowledgements of **186** papers of which I am not an author.

The order of authors in Astronomy & Astrophysics reflects the degree of contribution, first to last. **McGaugh** is listed in bold; directly supervised students and postdocs are *italicized*.

Publications in Refereed Journals

148. “BST1047+1156: A (Failing) Ultradiffuse Tidal Dwarf in the Leo I Group”
Mihos, J.C., Durrell, P.R., Watkins, A.E., **McGaugh, S.S.**, & Feldmeier, J.J. 2024, *ApJ*, in press
147. “Radial acceleration relation of galaxies with joint kinematic and weak-lensing data”

Conference Panel Discussions

15. Discussion
Combes & McGaugh
MOND at 40
14. Plenary Discussion 5
Rejkuba & McGaugh
Dynamical Masses of Local Group Galaxies
13. Concluding Discussion
McGaugh
The Functioning of Galaxies, Bonn, September 2019
12. Panel Discussion, Day Two
Panel Members: Kaplinghat, Khoury, McGaugh, Pospelov, H. Verlinde, Yu
Novel Ideas for Dark Matter, Princeton, January 2019
11. Panel Discussion, Day One
Panel Members: McGaugh, Boylan-Kolchin, Hernandez, Brooks, Combes, Besla, Lazutkina, Kroupa
Dwarf Galaxies on the Shoulders of Giants, CWRU, Cleveland, June 2017
10. Self-Interacting Dark Matter Panel
Panel Members: van den Bosch, Kaplinghat, McGaugh, Brooks
Beyond WIMPs: from Theory to Detection, Stony Brook, March 2017

9. Panel Discussion
Panel Members: Feng, McGaugh, Zurek, Graham
Debates on the Nature of Dark Matter, Harvard, May 2014
8. Panel Discussion: The meaning of the Tully-Fisher relationship and the problem of galaxy distances
Panel Members: Tully, McGaugh, Verheijen, S. Miller, Reies
Global Properties of HI in Galaxies, NRAO Greenbank, April 2012
7. Conference Summary & Discussion
McGaugh & Dodelson
Modified Gravity Approaches to the Dark Sector, Observatoire d'Strasbourg, July 2010
6. Conference Panel Discussion
Panel Members: White, McGaugh, Courteau, de Jong, Emsellem
Unveiling the Mass - Extracting and Interpreting Galaxy Masses, Queen's University, June 2009
5. Confernece Panel Discussion
S.D.M. White, chair
Mass Profiles and Shapes of Cosmological Structures
Institut d'Astrophisique de Paris, July 2005
4. "Dark Matter Halos and Galactic Rotation Curves – Is There a Problem?"
Panel Members: Steinmetz, van den Bosch, Swaters, Dekel, McGaugh, Primack

Reviewing Activities

I have refereed over 100 papers for various journals, including the *Astrophysical Journal*, *Monthly Notices of the Royal Astronomical Society*, the *Astronomical Journal*, *Astronomy & Astrophysics*, *Nature*, *Science*, *Physical Review* (including *Phys. Rev. Lett.*), *Journal of Cosmology and Astroparticle Physics*, *Philosophical Transactions of the Royal Society*, *New Astronomy*, *Classical and Quantum Gravity*, *Publications of the Astronomical Society of Australia*, *Advances in High Energy Physics*, *Physics Comments*, *Symmetry*, *Gravitation and Cosmology*, *European Physical Society Letters*, *Scholarpedia*, the *Reinvention Journal*, the *Jordan Journal of Physics*, the *Proceedings of the Pakistan Academy of Sciences*, and multiple books for the Cambridge University Press.

Other

I was an early-adopter of transparent data sharing, having built and actively maintained several web-based databases for scientific use:

The Data Pages: <http://astroweb.case.edu/ssm/data/>

On-line since 1999. Provides rapid and easy access to data that I have published.

The Model Pages: <http://astroweb.case.edu/ssm/data/>

Provides rapid and easy access to theoretical models that I have published.

The SPARC Pages: <http://astroweb.case.edu/SPARC/>

Provides rapid and easy access to rotation curves and mass models constructed with Spitzer Space Telescope data. Heavily utilized.

The MOND Pages: <http://astroweb.case.edu/ssm/mond/>

Provides links to the literature concerning MOND and various commentary.

Since 2016 I have blogged about science at Triton Station (tritonstation.wordpress.com).

In 2023, I wrote 26 posts that received 115,545 page views.

Course Development

University of Maryland

I developed the new graduate course *Cosmology* in 1999. This subject had not previously been taught at the graduate level at the University of Maryland. It has since been incorporated into the standard astronomy graduate curriculum. I developed the new Honors Seminar *Perspectives on the Cosmos: From the Ancient Philosophers to Modern Science* in 2008. This course qualified for Humanities CORE credit as a Philosophy course. I redeveloped the undergraduate major offering *Galaxies* in Spring 2011.

Case Western Reserve University

I developed a new SAGES University Seminar *USNA 287A: Perspectives on the Cosmos: From the Ancient Philosophers to Modern Science*, first offered in Spring 2013.

I developed a novel, mixed upper level/graduate course *ASTR 333/433: Dark Matter* in Fall 2013. The subject of dark matter is now fundamental to extragalactic astronomy and cosmology, but is usually introduced in a piecemeal fashion in other courses.

I redeveloped the program major required course on Cosmology in Fall 2020 during peak pandemic.

I led a graduate-level seminar in the Modified Newtonian Dynamics in Spring 2023.

Educational Web pages

I have developed and maintained extensive web pages for every course I teach. Beginning in 1999, this was *Canvas* before there was even *Blackboard*. Links to course web pages can be found at <http://astroweb.case.edu/ssm/courses.html>
